* 2021 Preliminary Forecast: This estimate of HEPI is calculated by inserting into the model a combination of actual new data points, where they have become available, and forecasts of the remaining data points based upon historical information. Numbers in blue are updated monthly.

IMPORTANT NOTES:

As of this posting, information for all components EXCEPT Admin Salaries and Fringe Benefits, was used to produce the August forecast. Please note, that due to COVID-19, we are working to fully understand the impact on salary data and other components. As the remaining data continues to come in over the next few weeks, we will work to analyze it and have a better grasp on how salaries are being impacted when the full report is published later this year.
