COMMONFUND WAS FOUNDED IN 1971 AS AN INDEPENDENT ASSET MANAGEMENT FIRM FOCUSED ON NONPROFIT INSTITUTIONS. WITH OVER \$26 BILLION IN ASSETS UNDER MANAGEMENT WE:

- HAVE THE FLEXIBILITY AND SCALE TO INDEPENDENTLY SOURCE INVESTMENT MANAGERS THAT MAY OTHERWISE BE UNAVAILABLE TO OUR INVESTORS
- PROVIDE ASSET MANAGEMENT SERVICES SUPPORTED BY RESOURCES AND EXPERTISE ACROSS INVESTMENTS, RISK, OPERATIONS AND SERVICE THAT WE BELIEVE ANY SINGLE INSTITUTION WOULD ASPIRE TO ASSEMBLE ON THEIR OWN
- OFFER A COMPREHENSIVE RANGE OF PUBLIC, PRIVATE AND ALTERNATIVE ASSET CLASSES AND STRATEGIES TO HELP OUR INVESTORS FULFILL THEIR MISSIONS

OUTSOURCED CIO SOLUTIONS

Through our U.S. registered investment adviser, Commonfund OCIO, Inc., we offer not-for-profit institutions a diverse spectrum of portfolio management services based on their needs, preferences and resources.

For those institutions that seek a discretionary investment management and advisory program, we provide fully customized professional management of investment portfolios along with a dedicated team to serve as an extension of your investment committee and internal staff resources. We can deliver everything from investment policy design to portfolio construction, day-to-day execution, risk management, consolidated reporting and operational assistance.

For those institutions that seek an integrated solution to elevate and simplify the professional management of their investment pools, but who want to maintain discretion over asset allocation and rebalancing decisions, we provide the ease and diversification of multi-asset, multi-manager vehicles combined with simple, unified reporting.

STRATEGY MANDATES

In addition to working with investors on their total portfolio, our registered investment adviser subsidiaries also have the flexibility to assist on a particular strategy area or single mandate within a portfolio. This approach allows us to partner with an institution's Investment Committee and staff such that we focus on areas that are particularly resource intensive or complex. Examples include:

- Alternative investment strategies
- Private equity

OPERATING ASSETS MANAGEMENT

Commonfund also offers investment solutions for operating assets that are tailored to each institution's unique needs, taking into account cash flow patterns, risk management and liability considerations. Commonfund Treasury Solutions offers programs at three liquidity levels — daily, weekly or longer periods for core balances. We take a strategic approach to operating assets management that is designed for institutions (public and private) maintaining \$50 million or more in operating assets and that have limited internal resources.

PRIVATE EQUITY

Having managed \$22 billion¹ in committed capital since 1988, and with a professional staff of over 50, our private capital registered investment adviser, CF Private Equity, Inc., partners with investment managers to offer private investment programs in:

- Venture capital
- Buyouts and growth equity
- Sustainability
- Natural resources
- Co-investments
- Secondaries

RESPONSIBLE INVESTING PROGRAMS

We have a proprietary framework to help your organization form an approach to responsible investing and determine your priorities. We also have the ability to provide investment programs that can meet the needs of institutions who desire a tight alignment between their mission and their portfolio through approaches such as:

- Socially responsible investing (SRI) strategies
- Sustainability and real assets strategies

Experienced service professionals and technology are hallmarks of our commitment to service. Our investors are serviced by a dedicated organization of Relationship Officers for consistent, timely support.

Risk management: a core discipline

Commonfund's enterprise risk management framework seeks to address a wide range of risk factors, including strategic, investment, operational, balance sheet, credit/counterparty, by-product and liquidity risks. Our Chief Risk Officer leads an independent Risk Management Team that closely collaborates with each investment group, all for the ultimate benefit of our investors. This collaborative approach enables us to focus on fulfilling our responsibilities to our investors, while also mitigating exposure to financial harm, operational failure, litigation or reputational damage.

Technology tools & reporting

All Commonfund investors have access to online tools that provide capabilities for monitoring and managing account information, transactions, performance, allocations, positions and more.

Asset allocation and portfolio modeling

We can help investors understand the implications of asset allocation decisions and spending rules for financial outcomes given our forward-looking return and risk expectations.
